

"IT SOAKS INTO METAL"

"After over half a million hours in the air using Avblend... our planes stay in the air longer and work better while they're up there."

*Herman Krunfus,
Manager Powerplant Maintenance, American Flyers*

Use AVBLEND in New, Rebuilt, and Used Engines.

AVBLEND® Helps...

- Prevent Carbon and Varnish Build-up
- Eliminate Damaging Dry Starts
- Restore Peak Combustion Performance
- Prevent Rust & Corrosion
- Increase Fuel Efficiency
- Reduce Premature Wear

"IT SOAKS INTO METAL"
